

What are you breathing?

Particle

Micron Size

Human Hair	70 - 100 microns
Pet Dander	0.5 - 100 microns
Pollen	5 - 100 microns
Spores and Plants	6 - 100 microns
Mold	2- 20 microns
Smoke	.01 - 1 micron
Dust and Mite Debris	.05 - 50 microns
Household Dust	.05 - 100 microns
Bacteria	0.035 - 10 microns

A micron is a measure of length
" 1 micron equals 1 millionth of a meter"

A particle that is 10 microns or less in size is not visible to the naked eye.
